It is not possible to run one without being able to.Q: How to pass custom folder in to the android.media.MediaScannerConnection? I want to scan all the images from the custom folder that has the custom directory structure. I am using following code:

```
folder = Environment.getExternalStoragePublicDirectory(
Environment.DIRECTORY_PICTURES).getAbsolutePath
(); MediaScannerConnection.scanFile(mContext, new
String[] { folder + "/album_id" }, null, new
MediaScannerConnection.OnScanCompletedListener() {
@Override public void onScanCompleted(String path, Uri
```

---

uri) { Log.e("receivedURI", uri.toString()); } }); It is able to scan only the folder on external storage but not from the custom folder? Can someone help me? A: You can get the absolute path of your external storage directory with: File f = new File(Environment.getExternalStorage
